After more than four decades and scores of books, documentaries, and films on the subject, what more can be said about the assassination of President John F. Kennedy? A great dealThe JFK "Head Shot" Paradox* by Jim Fetzerby Ralph Recently by Jim Fetzer: The Place of Probability in Science As a philosopher of science with a keen interest in the nature of scientific knowledge, I have been fascinated by the recent book by G. Paul Chambers, Head Shot: The Science Behind the JFK Assassination (2010).""Head Shot is one of the most important books ever written on the JFK assassination. It is a must-read."-JFK Assassination Web Page "[Chambers] writes very clear prose that takes on a dizzy, endearing lyricism only when he dwells on the wonders achieved by science.Chambers is a uniquely qualified guide to the assassination of. President John F. Kennedy. Instead of theorizing or demonizing, he. offers a fascinating defense of the scientific method through history. and applies that method to the oft-distorted JFK forensic evidence. He. dismantles the bad science at the core of Vincent Bugliosi's flabby
