But if our database isn't accurate then our test results will be worthless. I started writing this post about the processes we went through to ensure that the historical data we used was clean and that our constituent list was accurate. Property, in the abstract, is what belongs to or with something, whether as an attribute or as a component of said thing. In the context of this article, it is one or more components (rather than attributes), whether physical or incorporeal, of a person's estate; or so belonging to, as in being owned by, a person or jointly a group of people or a legal entity like a corporation or even a society.
